Customer Executive - Dish Tv

Freelance - Resolving customer query in real time

04/2021 – 01/2022

Projects

E&D 360 🔗

GitHub 🔗

A fully integrated **web and mobile** (Android & iOS) application for seamless employee and admin management.

Features:

- **Task Management** with CRUD operations, task status tracking, and employee assignments.
- **Attendance Management** for check-ins, check-outs, and work-hour tracking.
- **Leave Management, Reminders** with leave requests, approvals, and real-time status updates.
- **Admin Dashboard** with CRUD functionalities for employees, tasks, projects, and leave approvals.

Tech-Stacks:

MERN | React Native | JWT | Chakra UI | Expo | Android Studio | XCode | GitHub | Render

Area of Responsibility:

- **Designed and developed** the entire project, including web and mobile applications.
- Developed the **backend** with **Node.js, Express.js, and MongoDB**, implementing **authentication**, CRUD operations, and relational data handling.

Solo Company Project | Multi Platform Support

Technical Skills

React JS | React Native | Php |
Next JS | Node JS | Mongo DB |
Express | MySQL | Redux |
HTML | CSS | JavaScript |
Laravel | NPM | DSA | GitHub |
Bootstrap | Typescript | XCode |
Android Studio

Soft Skills

Time Management | Leadership |
Teamwork | Problem Solving

One Tap Sync

A fully integrated digital business card solution with master admin, company employee, and personal user panels for seamless contact management and NFC-based digital card sharing.

GitHub

A fully integrated **web and mobile** (Android & iOS) application for seamless employee and admin management.

Features:

- **User Management:** Master admin panel to manage companies, employees, and personal users with full CRUD operations.
- **Digital Business Cards:** Generate and share digital business cards via NFC, QR codes, and direct links.
- **Company and Personal Panels:** Separate dashboards for companies to manage employees and cards, and for personal users to handle their own cards and leads.

Tech-Stacks:

PHP | SQL (Database) | React Native (Mobile & iOS) | Expo | Android Studio | XCode

Area of Responsibility:

- **Designed and developed** mobile applications using **React Native**, ensuring seamless digital card sharing and connection management on both Android and iOS.
- **NFC Integration:** Implemented NFC functionality for instant digital card sharing, enhancing networking efficiency.
